

# FEE MANAGEMENT

Powered by CUTEK

## Benefits

- Eliminates manual research
- Improves the accuracy of fee adjustments
- Allows you to control fee refunds using your business rules
- Tightens security around the fee adjustment process
- Provides complete reporting

## Key Features

- Automated fee reversal process
- Removes errors and misuse to fee reversals
- One and done with a simple mouse click

CUTEK's **Fee Management Solution** was designed to remove the manual research and incorrect fee reversals. Our Fee Management Solution displays a list of all assessed fees against the selected account any time during the past two years. With one mouse click for each fee that needs to be adjusted our Fee Management Solution makes the appropriate adjustments to the member's account, debits the correct GL based on the type of fee assessed, and creates an individual record of each adjustment eliminating any confusion that could result in multiple refunds or other mis-postings.

We invite you to contact us for a demo.

CUTEK's Fee Management Solution provides a valuable member service and still allows us to manage our fee revenue.
